Contributes significantly to the success of the project.	4	4	4	4	4
TOTALS	24	24	24	24	24

Feedback on team dynamics:

1. How effectively did your group work?

My group shows a strong cooperation, as we immediately create a group chat room specially for the AJK Promotion use only. We discussed about how to promote the webinar, and conclude to use WhatsApp and Telegram Platform for promoting the webinar 5 event.

2. Were the behaviors of any of your team members particularly valuable or detrimental to the team? Explain.

I found that my team members show a great example of behaviors. They instantly reply to any member's question and concern. Moreover, they also actively participate in promoting the webinar event.

3. What did you learn about working in a group from this project that you will carry into your next group experience?

From this project, I learn that communication is a greatest factor for creating a good cooperation between team members. We must not rely on the others person to take the lead for starting the communication between the group teams, but we ourselves must take the courage to do so. With this mindset, we can contribute a lot for the progress of the project and results to a great achievement.
