

The background features several geometric shapes. On the right side, there are overlapping triangles in dark teal and yellow, with white outlines. On the left side, there are thin grey lines forming a network of hexagons and a dashed semi-circle.

**ONLINE LEARNING  
VS**

**TRADITIONAL  
CLASSROOM LEARNING**

WHICH IS MORE EFFECTIVE?

# The Team Introduction

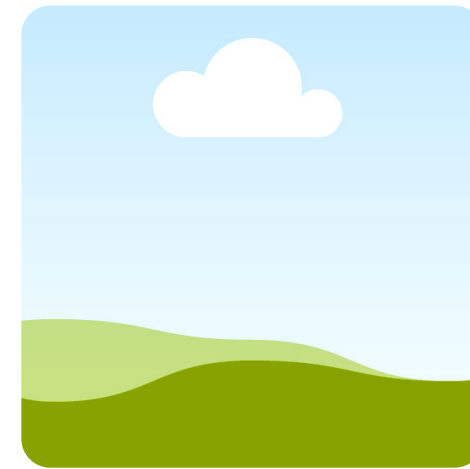

**Wan Putera**

**Azri Mustaqim**

**Arif Fikri**

**Nor Syafiqah  
Dayana**

**Nur Alia**

# What is Online Learning and Traditional Classroom Learning?

## **Online Learning**

Online learning is distance learning that uses the internet.

## **Traditional Classroom Learning**

Traditional classroom learning is face-to-face learning that takes place in the classroom.

# WHY this issue arose?

## **Time management**

Some students are unable to manage their time well when facing with online distance learning. They tends to neglect the classess due to so many distraction resulting in lack of disability to focus well during learning process.

## **Difficulties in learning & demanding material**

- Some subjects are much harder to teach in online setting.
- Addittionnal devices such as face cam, external microphone, wifi router are required for online learning.

Educators more focus on theoretical knowledge instead of practical

## **Conflict between family/work and study schedule**

- Require a good set of time management skills to adapt online learning.
- Parents may not fully understand the situation and neglect their children's emotion.

# When Online Distance Learning (ODL) had been started?

## 01 Traditional

Face to face classroom style has traditionally been the most popular educational system.

## 02 ODL

COVID-19 changes teaching and learning from home. COVID-19 has brought out a drastic change in educational system.

## 03 ODL

The Ministry of Education ordered universities and colleges no to conduct face to face classes because of the COVID-19 outbreak .

# WHO INVOLVED IN ONLINE DISTANCE LEARNING(ODL) ?

---

## Students

---

Benefits for students:

- i) Allow for self-paced learning
- ii) Can be more alert about homework
- iii) Reduce social anxiety

Challenge for students:

- i) Not receiving clear instructions or expectations
- ii) Lack of instant communication
- iii) Leads to ineffective time management among students

## Instructors

---

Benefits for instructor:

- i) Can access more teaching opportunities (variety ways of teaching)
- ii) Instructors can save more time
- iii) Easy to conduct students to do homework or assignments

Challenge for instructors:

- i) Platform that needs to use to conduct online class
- ii) Cannot monitor students closely and instruct them as usually
- iii) Difficulty of reaching students at the remote areas

# Where the implementation take place?

## 01 Institute of higher education

The implementation of ODL took place for higher education level such as Diploma, Degree, Master etc. Institute that are involved include public and private university, politeknik etc.

## 02 School

Online distance learning were also implemented in both primary and secondary school.

# How Online Distance Learning(ODL) and Traditional Learning be implemented.

---

## Learning Material

---

Traditional : Books and typed documents

ODL : Pdf documents, word documents

## Student Presentation

---

Traditional : Oral presentation in front of the colleagues

ODL : Through video clip or live presentation in google meet, zoom.

## Instructor feedback

---

Traditional : Direct,oral,immediate, real time

ODL : Usually written, delayed

## Instructor presentation, content.

---

Traditional :

- a) Instructor live oral presentation
- b) Instructor reacts directly

ODL :

- a) Instructor teaching through Google Meet, Zoom.
- b) Recorded instructor's presentation

**Thank You!**
